How the Trust/Academy collects data

The Trust/Academy primarily collects personal data directly from individuals, such as pupils and their parents, through various channels including online enquiry forms, emails, paper documentation, and regular interactions or communications. Additionally, personal data may be obtained from third parties, including other Trusts/Academies, local authorities, or other professionals and authorities involved with the individual.

While most of the personal data provided to the Trust/Academy is mandatory for fulfilling our legal and operational obligations, some data is collected on a voluntary basis. During data collection, the Trust/Academy will clearly inform you whether the provision of specific data is mandatory or if your consent is required. When consent is necessary, the Trust/Academy will provide detailed and explicit information regarding the purpose of data collection and its intended use.

Data retention

In accordance with the GDPR, the Trust/Academy does not store personal data indefinitely; data is only stored for as long as is necessary to satisfy the purpose for which it was collected. Exceed Learning Partnership's Data Retention Policy identifies how long personal data is stored for.

Retention periods vary depending on the category of data and are set out in the Trust's Data Retention Policy, which is reviewed annually. These are aligned to the Information Records Management Society (IRMS) toolkit where appropriate.

Data access and sharing

Exceed Learning Partnership and its academies take your privacy seriously and employ comprehensive measures to protect your personal data. We implement multiple layers of security to safeguard your information from unauthorised access, alteration, disclosure, or destruction. These measures include advanced encryption methods to secure data during transmission and storage, techniques to anonymize data, restricted access protocols, robust IT authentication processes, and protective software such as firewalls and anti-virus programs. These security protocols ensure that your data remains confidential and secure at all times.

We are committed to never disclosing or sharing your data without your explicit consent, unless required by law. Personal data will only be retained for as long as necessary to fulfil the purposes outlined in our privacy notices. Should you provide consent for us to share information related to school events, you may withdraw this consent at any time.

Most personal data collected by the Trust or its Academies will be handled internally and processed by authorised personnel in accordance with established access protocols. However, we also collaborate with third-party professional services to support our operations and maintain high standards of service and security. These third parties include:

- **Educational Institutions:** Information on pupils' next destinations after leaving us to ensure a smooth transition.

We carefully select and engage with these third parties, ensuring they comply with stringent data protection standards and only use your data as directed by us.

Where possible this is subject to contractual assurances that personal data will be kept securely and only in accordance with the Trust or its Academies' specific directions.

All third-party processors are subject to due diligence and contractually bound to implement adequate technical and organisational safeguards, in line with Article 28 of the UK GDPR
